The Honorable Julius Genachowski, Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: DA 12-1863, IB Docket No. 12-340; RM-11683

Dear Chairman Genachowski:

I am the owner of a printing and communications company in SE, Michigan. As a small business owner, I am a firm believer in competition. Delivering the best product for the price is what has made our company thrive for many years.

I realize that the FCC faces many challenges regarding the use of the spectrum for mobile broadband devices. LightSquared is a company that I believe deserves a favorable determination regarding their License Modification Application.

LightSquared's modification is a wise move that I request the FCC approve as quickly as possible. They have addressed the GPS issues that were raised in the past. The public will be well served by LightSquared getting approval for this use of the spectrum.

The company will help all of us by creating jobs and helping many other businesses as a catalyst for their expanded commerce. These are my main reasons for supporting LightSquared, but I am also aware that they will provide benefits for people living in more rural areas of our country.

From every aspect, LightSquared has made a sound case for them to be allowed to proceed. I hope that the FCC will concur.

Thank you.

Sincerely,

Dave Staudt
